SUMMARY

Full Stack Developer with a strong interest in backend engineering. Skilled in Java, DSA, and modern web technologies. Seeking opportunities to build scalable applications and solve real-world problems.

SKILLS

Languages: Java, Python | Frontend: React, JavaScript, CSS, Tailwind CSS, ShadCN | CS Fundamentals : DSA, OOPs , OS , CN | Backend: Node.js, Express, MongoDB, Auth(JWT/Clerk) , Rest APIs | Tools: Postman , Git , VS Code | Soft skills: Problem-solving, communication, adaptability , critical thinking

EXPERIENCE

Intern | Amalgam Steel Private Limited — Kandra, Jamshedpur

Sep 2025 – Nov 2025

- Developed a full-stack Inventory Management System with modules for Product, Inventory, Transaction, Logs and Authentication using Clerk.
- Built RESTful APIs with complete CRUD, debugged errors related to routes, authentication and request failures.
- Added user activity logging for audit trails and debugging.
- Investigated issues during development using logs, console output, and Postman testing.
- Applied backend best practices: middleware, validation, error handling, schema normalization, modular architecture.

Intern | Ardent Computech Pvt. Ltd. — Kolkata, India (Remote)

Sep 2025 – Nov 2025

- Developed a full-stack job portal with role-based authentication using JWT, Express, and MongoDB.
- Built job posting, editing, deletion, and application workflows for employers and job seekers.
- Designed a modern dark UI using TailwindCSS and ShadCN components.
- Implemented protected routes, secure backend APIs, and axios interceptors for token handling.

EDUCATION

Netaji Subhash University (NSU), Jamshedpur

Bachelor of Computer Applications (BCA)

Expected: July 2026

CGPA: - 7.6

Jamshedpur Co-Operative College, Jamshedpur

Intermediate (PCM)

Completed: June 2023

Marks: - 72.1%

Xavier Public School, East Singhbhum, Jharkhand

Matriculation

Completed: May 2021

Marks: - 67.1%

PROJECTS

Responsive Image-Enhancer Web App

Jul 2025 – Aug 2025

- Built using React.js and TailwindCSS.
- Applied modern UI/UX principles, mobile-first design, and deployed on GitHub Pages.
- Features: image upload, enhancement preview, mobile responsiveness.

Employee Management System

Sep 2025 – Oct 2025

- Developed a full-stack Notes/Employee Management System using React, Node.js, Express, and TailwindCSS.
- Implemented full CRUD functionality and rate-limiting for security and performance.
- Designed role-based dashboards for admin and employees.

KEY ACHIEVEMENTS

- Completed multiple full-stack projects involving APIs, authentication, and databases.
- Gained hands-on experience debugging backend and integration issues.
- Reduced issue recurrence with documented fixes & debugging.
